In an effort to preserve the road system infrastructure, the Town of Goffstown has a road moratorium policy which prohibits the opening of a repaved road for a period of three (3) years and the opening of a reclaimed/reconstructed or new road for a period of five (5) years. Although the Building Department will check the road moratorium list prior to issuing a building permit, it is the applicant's responsibility to check the road moratorium status and the road maintenance program with the Department of Public Works to coordinate road openings. Applicant must apply for a street opening permit with the Department of Pulic Works

I hereby authorize a representative of the Assessor's Office to enter onto my property to measure and list the exterior of any and all improvements located on my property.
